ABOUT COMPANY

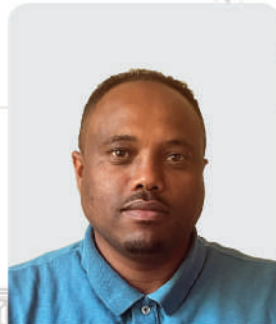

Abrham Mengistu Electro-mechanical Works (AMEMWs) is a Grade-1 electro-mechanical and water works construction contractor company that provides MEP (Mechanical, Electrical, and Plumbing) solutions for all industry sectors and subsidiary businesses. We provide design, supply, installation, testing, and commissioning of all electro-mechanical systems covering all industry sectors – residences, hotels, universities, hospitals, offices, etc... We are specialized in HVAC (heating, ventilation, and air conditioning), pumps, generators, elevators (passengers and goods), fire fighting systems, wastewater treatment systems, escalators and walkways, and BMS (building management systems). AMEMWs proudly provides high quality, efficient and reliable solutions as well as excellent service before and after sales.

MANAGING DIRECTOR STATEMENT

Progress for me has never been a dream. It has always been a distant reality and once one milestone is achieved, there is always another one waiting to be crossed. It is with this belief that I started AMEMWs in 2013, a company that was in the business of trading. Almost gradually, AMEMWs becomes a prominent engineering company in its business segments. But like every entrepreneur sticks to his dream, I always wanted to push my company to higher milestones. More than being a local player, I always foresee regional markets with our competitive and quality services. Taking a path less traveled, we expanded AMEMWs into water engineering, a highly sensitive business that requires a high amount of technical know-how, expertise and specialized knowledge. Overcoming challenge after challenge, AMEMWs is taking steps successfully to new milestones with the support of my brilliant team. The journey of AMEMWs is never ending. With the support of my team and clients, I am confident that the company will continue to scale up milestones of engineering excellence for years to come.

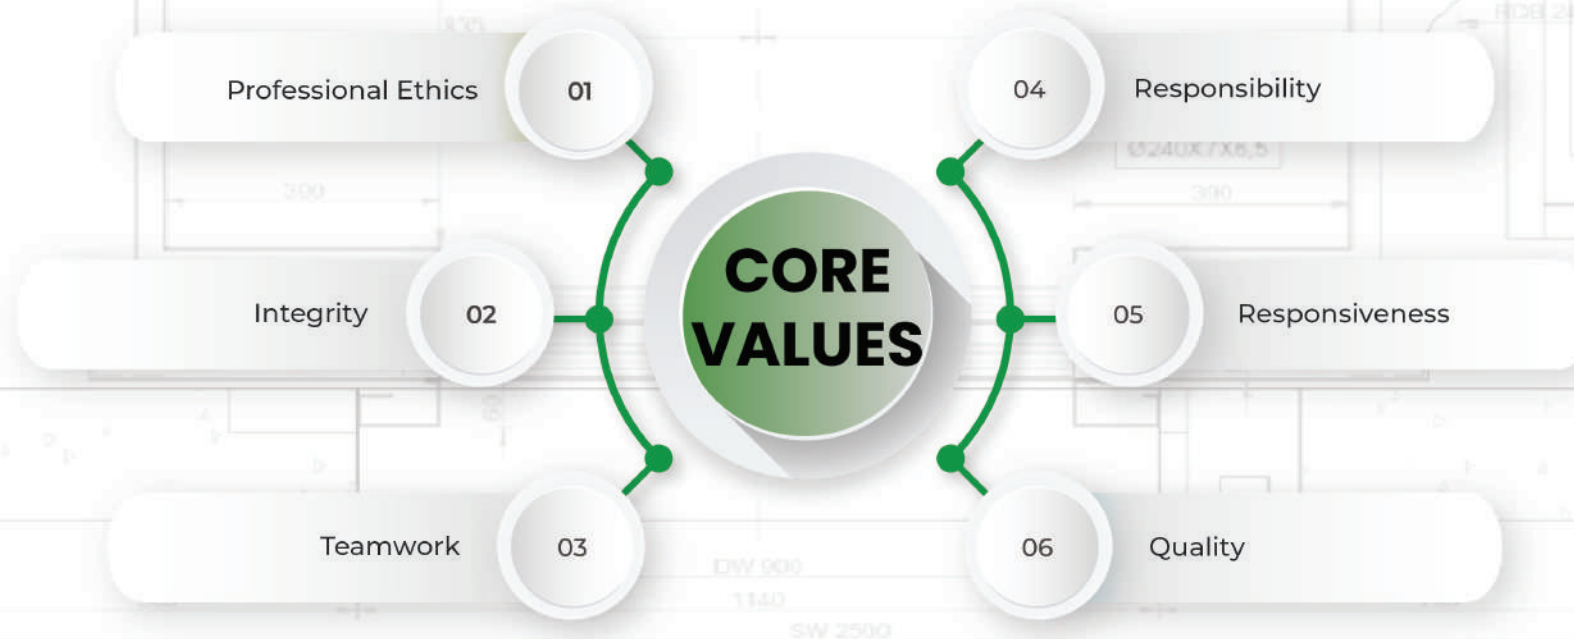

Abrham Mengistu
Managing Director

VISION

We aspire to become EPC (Engineering, Procurement & Construction) company through devising short-term stepping stones which eventually takes us towards achieving the set goal of becoming a fully-fledged industrial contractor. We aim to earn our customers' trust through continuous improvement driven by the commitment of the owner and the integrity, synergy, professionalism and innovation of our employees.

MISSION

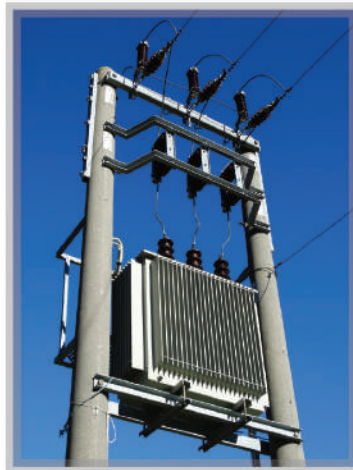

We are committed to delivering high-quality, cost-effective services by employing and supporting motivated, flexible, and focused individuals. We value the importance of our relationships and will continue to remain fair and true in our dealings with our customers, partners and subcontractors. We will strive to implement long-term relationships based on quality, health and safety, and timely service. We strive for the business excellence and quality improvement processes to ensure responsiveness and effective project executions.

OUR SERVICES

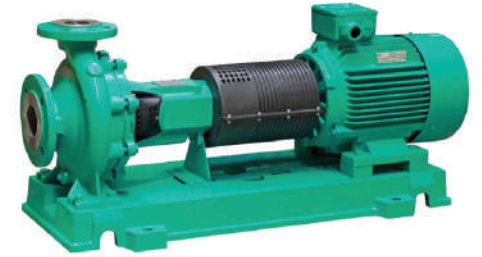

HVAC
(Heating, Ventilation, and Air Conditioning)

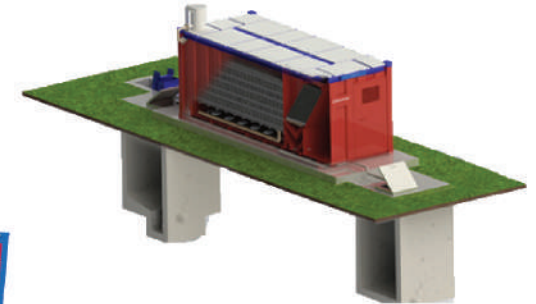

Electric poles and transformer installation

Fire fighting systems

Pumps

Wastewater treatment systems

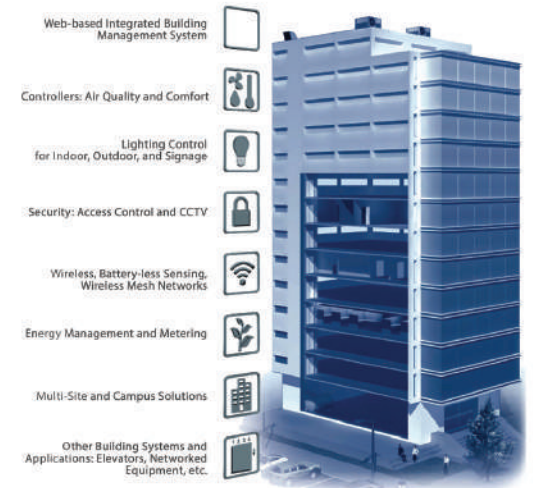

Elevators

Escalators and walkways

Generators

- Web-based Integrated Building Management System
- Controllers: Air Quality and Comfort
- Lighting Control for Indoor, Outdoor, and Signage
- Security: Access Control and CCTV
- Wireless, Battery-less Sensing, Wireless Mesh Networks
- Energy Management and Metering
- Multi-Site and Campus Solutions
- Other Building Systems and Applications: Elevators, Networked Equipment, etc.

Building management systems (BMS)

SELECTED PROJECTS

Client	Project Name	Contract Value (Birr)	Contact Person No.
Micro Construction and General Trading	Supply and Installation of HVAC	1,650,000.00	Samson +251935409554
Siram Trading PLC	Supply and Installation of Pumps	300,000.00	Sirak +251911202115
Sur Construction PLC	Supply and Installation of kitchen hood & accessories	774,608.00	Gebrehiwot Gebre +251 11 5582685
